Biocontrol CAMPO DEMO

Evaluation of different biocontrol products in grapevine and table grape against *Plasmopara viticola* and *Erysiphe necator* in 2 different areas in Italy

Agricola 2000 is a cooperative society in public limited form founded in 1983. We strives to be a benchmark for all institutions, companies and research centers, operating in the agriculture sector.

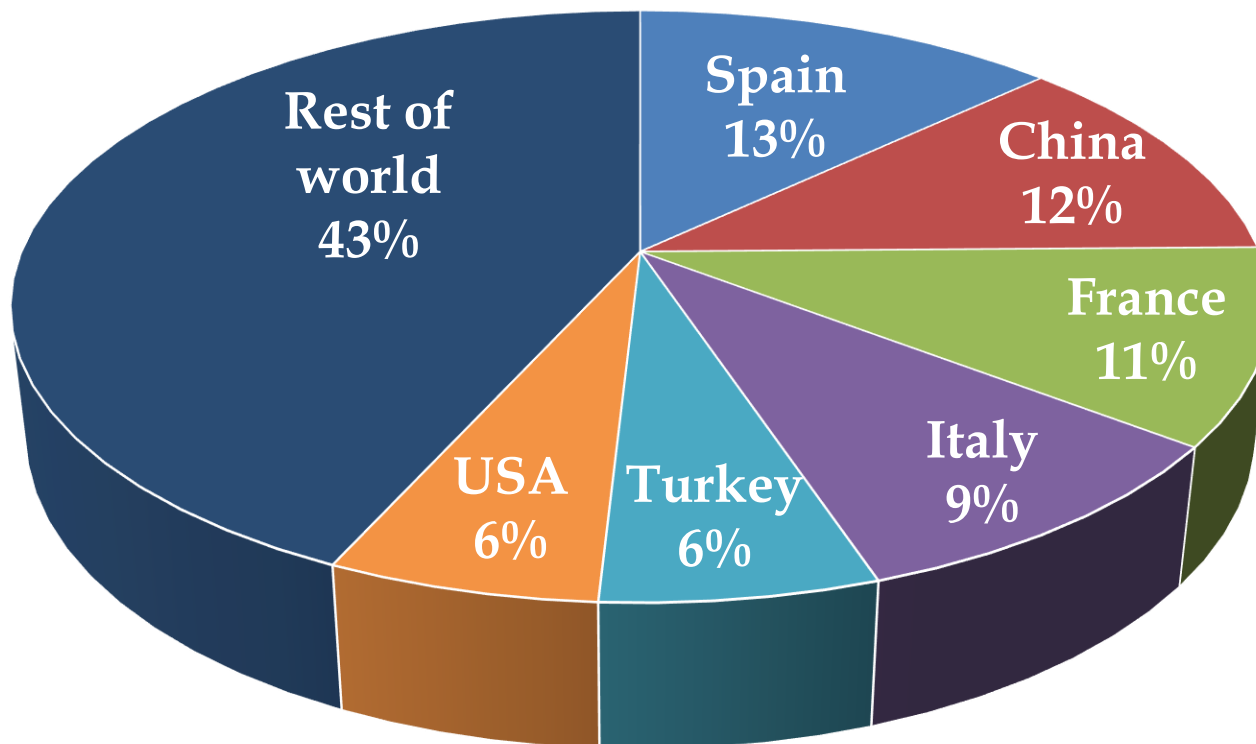

As recognized CRO, our approach to biocontrol products has been sincere and passionate.

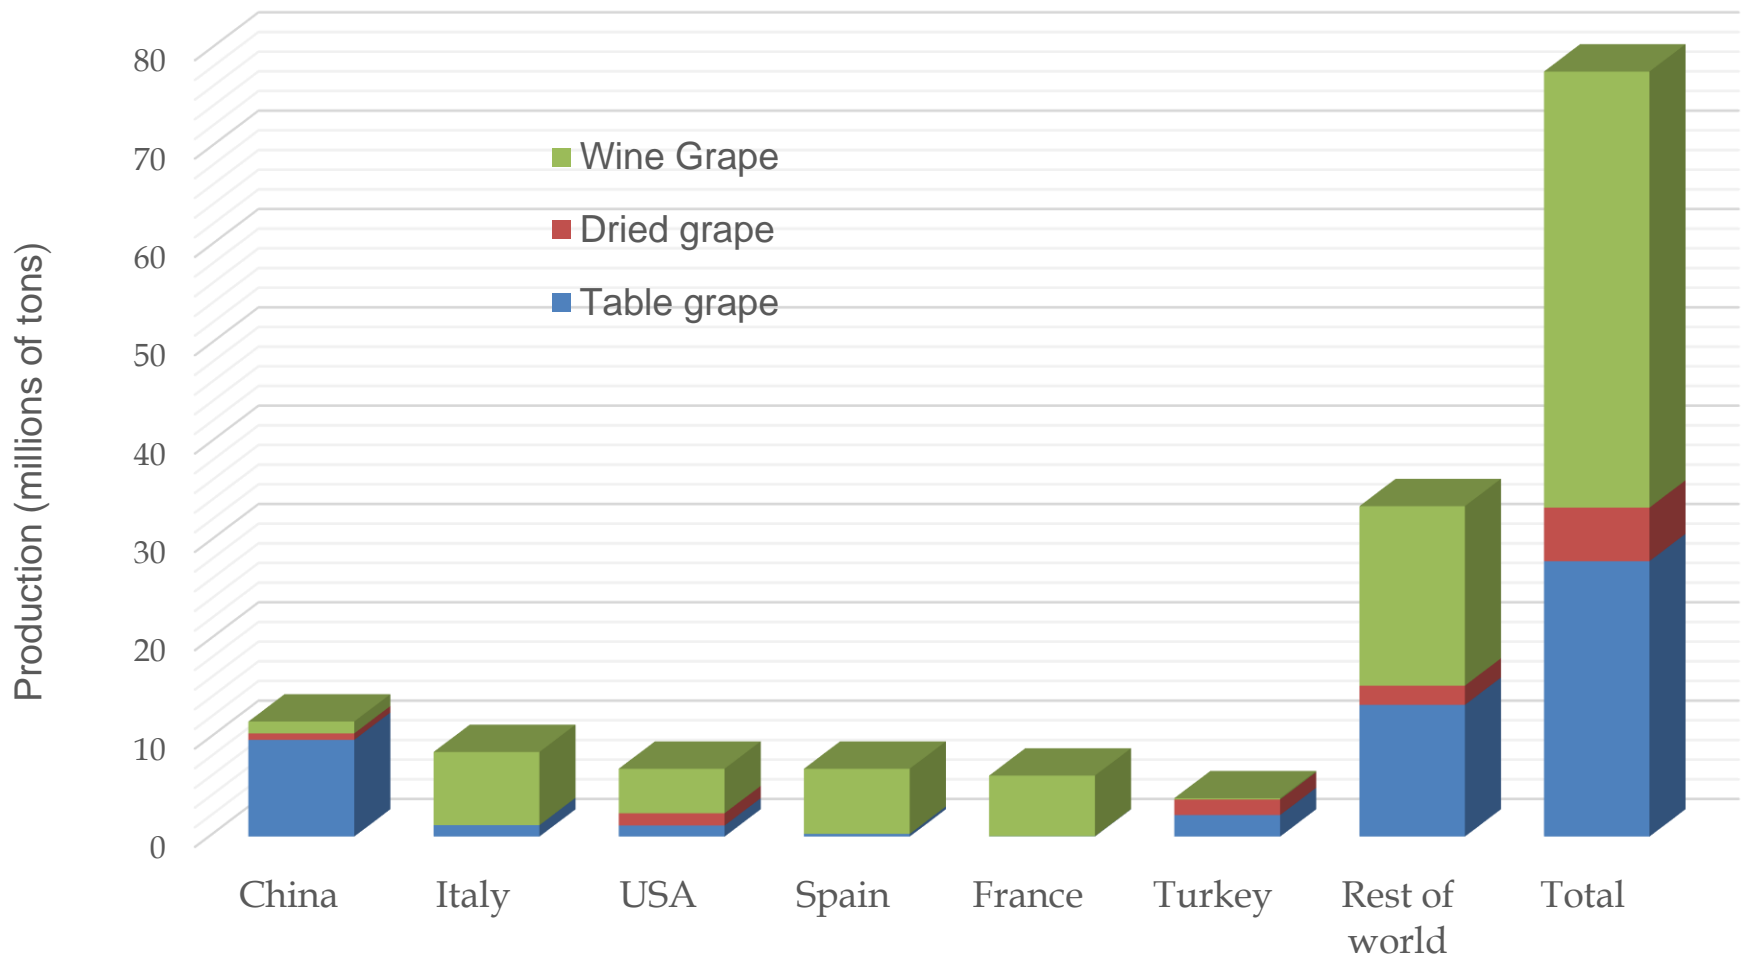

We always try to focus on customer needs, so to co-desing *ad-hoc* and repeatable services with them.

7.4 mha is the global area under vines in 2018
5 countries represent 50% of the world vineyard

Grapevine production by type of grape

Conclusions

We believe that the best key is communication and sharing information and, for this reason, we are investing in order that our service is of maximum use, as well as having a scientific and technological value for research, but also to transmit the communication to the farmer.

Thank you for listening... and watching!
